40 A colourless mixture is separated by paper chromatography.

The steps below describe the method. These steps are **not** in the correct order.

1 Remove the chromatography paper from the solvent when the solvent front is near the top of the paper.

2 Place the chromatography paper in the solvent.

3 Spray the chromatography paper with a locating agent.

4 Place a spot of the mixture on the pencil line.

5 Draw a pencil line at the bottom of the chromatography paper.

6 Draw a pencil line to mark the position of the solvent front.

What is the correct order for these steps?

A $3 \rightarrow 5 \rightarrow 6 \rightarrow 4 \rightarrow 2 \rightarrow 1$

B $5 \rightarrow 4 \rightarrow 3 \rightarrow 2 \rightarrow 1 \rightarrow 6$

C $3 \rightarrow 5 \rightarrow 4 \rightarrow 1 \rightarrow 2 \rightarrow 6$

D $5 \rightarrow 4 \rightarrow 2 \rightarrow 1 \rightarrow 6 \rightarrow 3$
