

- 13** A dam holds water in a reservoir. The height of the water in the reservoir is 15 m.

The density of water is 1000 kg/m^3 .

What is the pressure due to the water at the bottom of the dam?

- A** 6.8 Pa **B** 1500 Pa **C** 15 000 Pa **D** 150 000 Pa
