

Lists, links & images

HTML & CSS Reference

Lists

An unordered list 无序列表 `` shows bullets; an ordered list 有序列表 `` shows numbers. Each list item 列表项 is an ``.

```
<ul>
  <li>Apples</li>
  <li>Oranges</li>
</ul>
<ol>
  <li>Wake up</li>
  <li>Go to school</li>
</ol>
```

Links

A link 链接 is an anchor `<a>`. Its `href` attribute 属性 holds the address it points to.

```
<a href="https://example.com">Visit Example</a>
<br>
<a href="page2.html">Go to the next page</a>
```

- Add `target="_blank"` to open the link in a new tab.

Images

An image 图片 is `` —it has no closing tag. `src` is the picture's address; `alt` is text shown if the image cannot load (and read aloud to blind users).

```
<img src=
↳ "https://upload.wikimedia.org/wikipedia/commons/thumb/6/6b/Bitmap_VS_SVG.svg/120px-Bit
  alt="bitmap versus vector" width="120">
<p>If the picture is missing, the alt text shows instead.</p>
```
